

Sept. 12, 2005

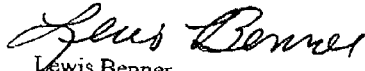

Planning Board
City of Gardiner, Maine

To the Board,

I am under the understanding that the property currently occupied by Winter St. Baptist church on the corner of Winter and Summer streets has historically been zoned "Central Business". Recently however, it had inadvertently been changed to "High Density Residential" on the latest zoning map. I would like to request that this property be officially returned to Central Business zoning.

Also, Lots on Map 28 numbers 1, 2 and 3 as well as Lots on Map 30 numbers 3 through 8, 10 and 11 were historically zoned as "High Density Residential" and have inadvertently been changed to "resource Protection" on the latest zoning map. I would like to request that these properties be officially returned to High Density Residential zoning.

Respectfully,

Lewis Benner
Gardiner City Council
Councilor-at-Large
