December 6, 2007

Jeff,

I want to drop you a quick note just to let you know how much I appreciate how all the City departments pull together to help each other out.

I am especially grateful to both the Building and Grounds Department and the Public Works Department. As you know we are renovating the Children's Room and there has been lots of disruption. We had to empty out the whole room so the contractors could do their work. Pat Chadwick, David Grover and Jerry Quintal spent hours hauling the collection to our storage area. We couldn't have done it without them!

Today, Pat Chadwick and Larry Whitmore cheerfully carried our large and heavy stage curtain from a building on Water Street to a more secure location in the library. I so appreciate their helping us out and I especially appreciate their good humor while they were carrying it.

Please feel free to share this letter. We have such wonderful employees in the City of Gardiner!

Anne Davis
Director of Library and Information Services
