Thank You

Dear Doug,
I liked you as a tour guide. You explained everything clearly and answered our questions. I liked how you took us for a guide all around the building step by step. I liked the big black things that kept spinning. I liked the lab also. Thank-you very much it was an awesome field trip.

Sincerely,
Siarah

I was I love,
I had a great time
at the wastewater plant.
My favorite parts were
the turbine room, the
sludge room and the
room that smelled like
cotton candy. Thank
you for being our
tour guide.

Sincerely,
Dan
