

Equipment Operator
Department: Public Works
Location: Old Brunswick Road

GENERAL PURPOSE

This is skilled work in the operation of motor-driven earth moving equipment. Employees in this class are responsible for the safe and efficient operation of heavy and complex earth moving equipment. Positions in this class are differentiated from positions in related classes because of the greater manipulative skill and attention necessary to move, place, or smooth construction materials expeditiously to protect the safety of workmen in the area and to protect the equipment from damage. Work may involve supervision of a small crew in some activity related to the use of the piece of equipment being operated. Equipment used includes-backhoe, dump truck, pickup truck, utility truck, street sweeper, jetter/inductor truck, street roller, manlift, tamper, plate compactor, saws, pumps, aeroil propane kettle, compressors, sanders, generators, hand and power tools, shovels, wrenches, detection devices, and ditch witch. Worker must operate a variety of contractor's equipment and trucks utilized in the construction, maintenance and repair activities of street, water, sewer and storm drainage systems.

SUPERVISION RECEIVED

Works under the close supervision of the Director of Public Works.
