**SECURITY PROTOCOLS**

Wellness Connection of Maine takes the safety and security of its patients, employees, guests, and neighbors very seriously. We have a central security office which works with several outside contractors to plan, monitor, and upgrade security programs for all of our facilities. The building in question is approximately 8,000 sq. ft. and is completely equipped with more than sufficient and appropriate security measures to:

1. Provide a safe and secure environment for visitors and staff.
2. Deter and prevent unauthorized entrance into areas containing marijuana.
3. Deter and prevent the theft of marijuana.

**Security Surveillance Cameras:**

Security surveillance cameras have been installed and are operating twenty-four (24) hours a day, seven (7) days a week, and retain a minimum of thirty (30) days video storage. These surveillance cameras monitor all entrances, along with the interior and exterior of the premises, to discourage and facilitate the reporting of criminal acts and nuisance activities occurring at the premises.

**Alarm System:**

The building is equipped, regulated and monitored by a commercial combination control panel with an audible alarm that is monitored by a Professional Security Company and alarm notification capabilities with smart phone monitoring, with notifications that are sent immediately and directly to both the Gardiner Police Department and one of our managers from the Wellness Connection of Maine, so that they may assist Gardiner Police as needed to resolve the alarm.

All doors and windows are equipped with burglar contacts and motion detectors to prevent unauthorized entrance after hours.

The building is also outfitted with silent panic alarms that staff can utilize in event of an emergency. These are directly monitored by our security company 24 hours a day and in the event, one is activated, Gardiner Police would be notified immediately

**Locking Safe or Functional Equivalent:**

Dedicated rooms with limited access have been designed to store all marijuana products. These areas have heavy-duty walls with an access card reader controlling access to only authorized employees. Access is limited to only supervisors and managers.

**Methods to ensure no underage access is permitted:**

Methods to ensure that no person under the age of twenty-one (21) shall have access to marijuana and marijuana products have been instituted by having all visitors, vendors and contractors sign in with the on-site security department. The manager on duty verifies each individual's state identification to ensure they are 21+, signs them into the facility log, retains the identification for the duration of their visit and then provides the visitor with an employee escort.

We have also provided the Gardiner Police and Fire Department with the name and phone number of our Logistics and Security Manager as well as the names and phone numbers of the 2<sup>nd</sup> and 3<sup>rd</sup> responsible employees in the security call queue.

**FIRE PROTECTION/SUPPRESSION EQUIPMENT**

Throughout each WCM facility, fire extinguishers are readily available. Their locations are featured in the emergency evacuation maps. WCM's Fire Prevention Plan (FPP) follows OSHA's recommendation that the decision to use portable fire extinguishers should be spelled out in the EAP. In it WCM permits employees to use the portable fire extinguishers if they feel comfortable doing so. Fire prevention training is conducted annually for all employees at each facility and extensively covers understanding the nature of the fire, how to safely fight a fire, evacuation and reporting protocols in the case of a fire emergency.

In the Gardiner Manufacturing facility is protected by a sprinkler system, and the cooking area is protected by a commercial exhaust hood with an integrated Badger 5QT Wet Chemical fire suppression system.

**ODOR CONTROL****Wellness Connection of Maine Operations Overview**

Wellness Connection of Maine has 4 dispensaries, a commercial kitchen, and a cultivation and processing facility. All cultivation is performed at specialized indoor facility in Auburn. Plants are harvested, dried, trimmed, and packaged in high barrier packaging at this facility. Dispensaries receive packaged medicine and do not store, handle, or package any flower or odor producing products that aren't already sealed in barrier (odor proof) packaging. The Manufacturing facility in Gardiner receives marijuana only in extracted (oil) form, in sealed barrier containers.

**Activities at 31 Maine Ave. Gardiner**

The manufacturing facility in Gardiner produces edibles (chocolate, gummies, candy, potato chips, etc.), tincture, and topicals using commercially available ingredients and extracted cannabis oils. These oils are kept in sealed jars under refrigeration until they are needed for production. The kitchen area is served by an HVAC system with carbon filtration to reduce any odors emitted from production operations. Filters are regularly serviced and changed by a contracted HVAC service provider. This facility has operated since 2016 without any complaints about odors.

#### **No On-Site Consumption**

Consumption of cannabis (including smoking or vaping) on site is prohibited by Maine state law, and Wellness Connection of Maine staff are always very clear to explain this to customers and vigilant in enforcing this policy in all of our locations. This policy eliminates the potential for odors from consumption of marijuana products.

### **PROCESSES AND PRODUCTS**
