

**GARDINER CITY COUNCIL
AGENDA ITEM INFORMATION SHEET**

Meeting Date	10/19/2022	Department	City Clerk
Agenda Item	4. h- New Fire Engine		
Est. Cost	\$949,080.00		

Background Information

FY23 is the year we have slated to replace Engine 2. Engine 2 is a 1991 Pierce Class A Pumper. Being over 20 years old, Engine 2 has reached the end of it's life as a front line piece. Engine 2 no longer meets industry standards regarding primary fire suppression apparatus.

Engine 1 was paid off this year, placing us in a great position to begin payments on a new engine. Placing Engine 2 into reserve status and purchasing a new engine will bring all of our front line fire apparatus into compliance with NFPA 1901.

The price of this truck includes an NFPA equipment allowance of \$52,838.00, enabling us to replace much of the outdated equipment on Engine 2 with current NFPA industry standard equipment.

The expected time frame from ordering to delivery is 24 months.

We are currently seeking proposals for a 15 year lease-purchase with a 10/18 bid date. We would like to discuss the results with the council.

Requested Action	"I move to approve a 15 year lease-purchase of the Pierce Arrow XT fire truck costing \$949,080.00 with _____ and direct the City Manager to sign the lease purchase agreement."
