**Subject:** Yet another incomplete application

To each of you,

I want to respectfully, and in writing, request that Mr. Boghossian's application be denied this evenings public hearing. Although the city has offered their help and hours of consideration, he has NOT provided the city with the financial information that was requested. He has once again changed the scope of this project to the point of playing monkey in the middle with all of us. He has provided "concepts" with out concrete information. The neighborhood has educated ourselves, and respectfully organized our effort to utilize the ordinances and the review processes that are in place. We feel the Planning Board has given Mr. Boghossian fair and broad advantages to develop his plan. Tonight we earnestly hope to see a more rational approach than 6 hours of late night wavering considerations. He clearly has not shown the same regard for the process as you have given him. We will be asking for findings of fact on every ruling, and are committed to any appeal that is available to the residents of our Dresden neighborhood. We thank each of you for the time ( hours and hours of service , especially as volunteers) and dedication you have to the growth AND preservation of our city. Sincerely, Cheryl Clark
