Section 512. Definitions.

(A) Entertainment. For the purposes of this ordinance, "entertainment" shall include any amusement, performance, exhibition or diversion for patrons or customers of the licensed premises whether provided by professional entertainers or by full-time or part-time employees of the licensed premises whose incidental duties include activities with an entertainment value.

CITY OF GARDINER CODE

Section 515. Suspension or Revocation of a Permit.

These rules and regulations may specifically determine the location and size of permitted premises, the facilities that may be required for the permitted activities on those premises, and the hours during which the permitted activities are permitted.

Such rules and regulations shall be additional to and consistent with all sections of this ordinance.

Section 517. Permit and Appeal Procedures.

Section 591. Purpose.

The city council finds that, because of their unique and potentially offensive nature, Adult Business Establishments can have a blighting influence on the surrounding neighborhood if permitted at all in certain zones, or if allowed to concentrate in certain other zones within the city. Moreover, such establishments are incompatible with uses characterized by family and youth-related activities. The purpose of this chapter is, therefore, to prevent such deleterious effects and thus, protect the public health, safety and general welfare by regulating the location and certain other aspects of Adult Business Establishments.

Section 592. Definition.

(A) "Adult Business Establishment" means and includes any retail business, including but not limited to, any book store, newsstand, novelty store, nightclub, bar, cabaret, amusement arcade or theater which:

- (4) Keeps for public patronage, any sexually explicit material such as books, films, video tapes, audio tapes which display or depicts sex organs during actual or simulated sexual intercourse or sexual acts.

(D) "Church" is a place or structure whose primary use is for public religious services or assembly by a person or organization with Tax Exempt Status.

(A) Such establishment shall be at least one thousand (1,000) feet from any other Adult Business Establishment, and at least one thousand (1,000) feet from a Residential Zone, at least one thousand (1,000) feet from a church, all schools, child care facilities and playground or recreation areas, as measured in a straight line, without regard to intervening structures or objects.

(B) No sexually explicit materials, entertainment or activity shall be visible from the exterior of the premises.

(C) No person, firm or corporation shall operate an adult business establishment without first obtaining a license. Applications for license will be made to the municipal officers on the forms provided by them. Applications must be accompanied by a fee of **\$250.00**. SECTION

- 1401. Sidewalks to be Cleared of Snow
- 1402. Ice
- 1403. Snow or Ice Threatening Use of Public Streets, Sidewalks or Parking Lots
- 1404. Deposits of snow in city streets

Section 1401. Sidewalks to be cleared of snow.

The owners or tenants of property abutting on the following streets or portions thereof shall, after snow has ceased to fall, if in the daytime within six hours, and if in the nighttime before one o'clock in the afternoon next, cause the same to be removed from the abutting public sidewalks on both sides of: Water Street from Winter Hill to Steamboat Street, Church Street from Water Street to Mechanic Street, Brunswick Hill from Water Street to Mechanic Street, Maine Avenue from Water Street to Cobbossee Stream, Bridge Street from Water Street to Cobbossee Stream.

Section 1402. Ice.

The owners or tenants of property abutting the public sidewalks in those areas listed in Section 1401, whenever any ice shall have formed upon the sidewalk bordering upon the store or shop, shall cause the same to be removed, or to be covered or strewed with sand, ashes or other substances, in such manner as to render the said sidewalks safe and easy for foot passengers.

Section 1403. Snow or Ice Threatening Use of Public Streets, Sidewalks or Parking Lots.

1403.1. Applicability: The following provisions shall apply to all property owners with buildings or structures that abut the public sidewalks and/or streets or municipal parking lots, or are in proximity to public sidewalks and/or streets or municipal parking lots such that ice or snow falling from the building or structure would fall on the public sidewalks and/or streets or municipal parking lots.

1403.2. Enforcement: The provisions of this section shall be enforced by the Code Enforcement Officer and/or her/his designee.

1403.3. Duty to Remove: When an accumulation of snow or ice on a building or structure poses the threat of falling onto public sidewalks and/or streets or municipal parking lots, it shall be the duty of the property owner to remove such accumulations in order to make passage along sidewalks and/or streets or within municipal parking lots safe and convenient and to eliminate any danger from falling ice or snow to pedestrians, vehicles, and/or property.

CITY OF GARDINER CODE

1403.4. Removal of the Hazard: Removal of any accumulation of ice or snow with a potential for falling onto public sidewalks and/or streets or municipal parking lots shall take place either: (1) whenever a threatening condition occurs; or (2) within twenty-four (24) hours after the Code Enforcement Officer or his/her designee has verbally or in writing given notice as provided below of the condition and ordered the removal of such accumulations, whichever occurs first. Whenever snow or ice accumulates in such a manner as to hang over a street, sidewalk or municipal parking lot, such condition shall constitute prima facie evidence that the condition is a threatening condition. A determination by the Code Enforcement Officer or his/her designee that an accumulation of snow or ice is a threatening condition shall be conclusive and not subject to challenge or appeal until after the building owner has removed the snow or ice. Notice shall be given to the owner or to an owner's agent who has maintenance responsibility for such building. The record owner of each such building shall be the owner as appears in the tax assessment records of the City of Gardiner.

1403.5. Notice of Threat and Barricading of Sidewalks and Parking Lots: If the Code Enforcement Officer determines that there is an imminent threat to public safety from falling ice or snow, she/he shall notify the property owner verbally or in writing on such threat. The property owner, within four (4) hours of receiving such notice, shall erect or cause to be erected signs warning users of the sidewalk or municipal parking lot of the potential danger of falling ice and/or snow and shall work with the Public Works Department to provide appropriate barricades to discourage the use of the sidewalks or municipal parking lot in the immediate vicinity of the threat. The notices and barricades shall be removed only after the potential threat has been removed or otherwise addressed.

1403.6. Failure to Remove the Threat: In instances where the owner has not caused the removal of the accumulated ice and snow within twenty-four (24) hours of receiving notice of the threat, the Code Enforcement Officer or his/her designee may arrange for the removal of snow and ice accumulations which exists in violation of **1403.3** and **1403.4** above in order to eliminate any danger to pedestrians, vehicles and/or property.

1403.7. Enforcement Delay: The City Manager may delay enforcement of the provisions of this section. Such a delay shall be for the purpose of giving property owners additional time to clear ice or snow from buildings upon which ice or snow has accumulated, or for such other good cause shown. Any such declaration shall be reduced to writing as soon as practicable thereafter, stating the reasons therefore.

1403.8. Correction of Conditions Creating the Threat: Pursuant to 30-A M.R.S.A. § 3007, after a building owner has been given one (1) notice and order under **1403.4** above and failed to comply and the City has removed the snow or ice, or when a building has been the subject of three (3) or more notices within an eighteen-month period, the Code Enforcement Officer

CITY OF GARDINER CODE

or his/her designee may initiate action to require the owner of a building to install roof guards, or take other measures at the owner's expense to prevent the fall of snow or ice. The Code Enforcement Office shall provide the property owner with written notice of the requirement to take corrective action. If the property owner fails to take the required action within thirty (30) days or such other longer period provided for by the Code Enforcement Officer, the City Council shall send a written notice to the owner. If the property owner does not install roof guards or take other corrective action approved by the Code Enforcement Officer within (14) fourteen days after the notice is sent, the municipal officers may have proper roof guards installed or other corrective action taken at the municipality's expense with the costs plus a ten percent (10%) administrative charge recovered from the owner by direct billing or by a special assessment as provided in 25 M.R.S.A. § 2393 if such billing is not paid within thirty (30) days.

1403.9. Penalties: The penalty for an offense shall be two hundred fifty dollars (\$250.00) plus attorney's fees and costs. For this purpose, each day on which a violation shall occur or continue shall constitute a separate offense. When the City removes or arranges for the removal of snow or ice accumulations, the owner shall also be charged the costs of removal, plus a ten (10%) percent charge for administration. A separate bill for each such removal shall be submitted to the record owner of the building as soon as practicable after the charges have been incurred.

1403.10. Liens: In addition to other collection methods authorized by law, and the penalties provided herein, charges assessed pursuant to this Section shall be enforceable by lien for the benefit of the City. If the penalties, assessments, and costs are not paid within thirty (30) days of notice to the owner of the amount due, then the non-payment shall be provided to the Tax Collector who shall collect the amount as part of the next year's ad valorem property taxes for the property. In addition, a notice of lien may be filed in the Kennebec County Registry of Deeds.

1403.11 Liability: Where there is a failure of the owner after notice to remove the accumulated ice or snow from a building or structure pursuant to this section, and the City must perform the removal, then the City shall be held harmless from any form of liability with regard to the removal.

1403.12 Severability: Should any section or provision of this Ordinance be declared by a court of competent jurisdiction to be invalid, such decision shall not invalidate any other section or provision of this Ordinance.

Section 1404. Deposits of snow in city streets.

Except for snow and ice removed from sidewalks on those streets listed in Section 1401, no person shall throw or deposit any body of ice or snow in any public way of the city, or cause the same to be done, without forthwith causing the same to be removed from said public way.

of whether the ownership is public or private. A road name assigned by the city shall not constitute or imply acceptance of the road as a public way. The following criteria shall govern the naming system:

- (A) Similar names -- no two roads shall be given the same or similar-sounding (e.g. Beech and Peach, Pine Road and Pine Lane) names.
- (B) Each road shall have the same name throughout its entire length.

- (D) In the process of evaluating existing street names in accordance with the above criteria, renaming shall cause the least disruption possible but shall nevertheless be subject to the purposes of this Chapter as stated in Section 1420 above.

Section 1424. Numbering System.

Numbers shall be assigned every twenty-five (25) feet in the downtown area³², fifty (50) feet in all other areas, along both sides of the road, with even numbers appearing on the left side of the road and odd numbers appearing on the right side of the road, determined by the number origin. The following criteria shall govern the numbering system:

- (B) The number assigned to each structure shall be that of the numbered interval falling closest to the front door or driveway of said structure.
- (C) Every structure with more than one principle use or occupancy shall have a separate number for each use or occupancy (i.e., duplexes will have two separate numbers, apartments will have one road number with an apartment number, such as 235 Maple Street, Apt. 2.)

Section 1425. Compliance.

All owners of structures shall, on or before the effective date of this ordinance, display and maintain in a conspicuous place on said structure, the assigned numbers in the following manner:

- (A) Number on the Structure or Residence. Where the residence or structure is within 40 (fifty) feet of the edge of the road right-of-way, the assigned number shall be displayed on the front of the residence or structure in the vicinity of the front door or entry.

CITY OF GARDINER CODE

- (B) **Number at the Street Line.** Where the residence or structure is over 50 (fifty) feet from the edge of the road right-of-way, the assigned number shall be displayed on a post, fence, wall, mail box, or on some structure at the property line adjacent to the walk or access drive to the residence or structure.
- (C) **Size and Color of Number.** Numbers shall be displayed in a color and size approved for use by the council and shall be located as to be visible from the road.
- (D) **Every person whose duty is to display the assigned number shall remove any different number which might be mistaken for, or confused with, the number assigned in conformance with this ordinance.**
- (E) **Interior Location.** All residents and other occupants are requested to post the assigned number and road name adjacent to their telephone for emergency reference.

Section 1426. New Developments and Subdivisions.

All new developments and subdivisions shall be named and numbered in accordance with the provisions of this ordinance and as follows:

- (A) **New Developments.** Whenever any residence or other structure is constructed or developed, it shall be the duty of the new owner to procure an assigned number from the Code Enforcement Officer. This shall be done at the time of the issuance of the building permit.
- (B) **New Subdivisions.** Any prospective subdivide shall show a proposed road name and lot numbering system on the pre-application submission to the Planning Board. Approval by the Planning Board shall constitute the assignment of road names and numbers to the lots in the subdivision. On the final plan showing proposed roads, the applicant shall mark on the plan, lines or dots, in the center of the streets every 50 (fifty) feet so as to aid in assignment of numbers to structures subsequently constructed.

Section 1427. Notice.

Where an existing address or designation has been changed, the E911 Addressing Officer shall notify by mail each owner and the United States Post Office of the new address at least sixty (60) days prior to the date the change becomes effective.

Section 1428. Appeal.

Any property owner aggrieved by a decision of the E911 Addressing Officer to assign a road name or location number, may appeal that determination to the Addressing Ordinance Appeals Board by filing a notice in letter form to that effect in the Clerk's Office within ten (10) days of receipt of notice of the determination by the E911 Addressing Officer. The Addressing Ordinance Appeals Board shall consist of a City Councilor appointed by the Mayor and two (2) citizens appointed by the Mayor. The Board may request assistance from the Police and Fire Chiefs or their designees.

CITY OF GARDINER CODE

The appeal shall be on the sole issue of whether or not the designation of the road name and/or location number by the E911 Addressing Officer meets the purpose and expressed conditions of this Chapter. The Board shall have the right, in making this determination, to affirm the designation by the E911 Addressing Officer, to modify that designation in any manner consistent with this Chapter, or to adopt a new designation also in conformity with this Chapter. Since the property owner has not inherent rights with respect to street naming and numerical designation of locations, the decision of this Board shall be final and binding.

Section 1429. Effective Date.

This ordinance shall become effective as of June 14, 1995. It shall be the duty of the city to notify by mail each owner and the Post Office of the new address within thirty days. It shall be the duty of each property owner to comply with this ordinance within 30 (thirty) days of notification. On new structures, numbering will be installed prior to certificate of occupancy being issued, or when the structure is first used or occupied, whichever comes first.

Section 2628. Restricting Vehicle Weight on Posted Ways

Section 1. Purpose and Authority

The purpose of this ordinance is to prevent damage to city ways and bridges in the City of Gardiner which may be caused by vehicles of excessive weight, to lessen safety hazards and the risk of injury to the traveling public, to extend the life expectancy of city ways and bridges, and to reduce the public expense of their maintenance and repair. This ordinance is adopted pursuant to 30-A M.R.S.A. Sec. 3009 and 29 M.R.S.A. Sec. 902 and 1611.

CITY OF GARDINER CODE

Section 3. Restrictions and Notices

The Director of Public Works/Supervisor of Public Works may, either permanently or seasonally, impose such restrictions on the gross registered weight of vehicles as may, in his/her judgment, be necessary to protect the traveling public and prevent abuse of the highways, and designate the city ways and bridges to which the restrictions shall apply.

Whenever notice has been posted as provided herein, no person may thereafter operate any vehicle with a gross registered weight in excess of the restriction during any applicable time period on anyway or bridge so posted unless otherwise exempt as provided herein. (No restriction if road is solidly frozen. "Solidly frozen" means that the air temperature is consistently below 32 degrees F and no water is showing in the cracks of the road.)

The notice shall contain at a minimum the following information: the name of the way or bridge, the gross registered weight limit, the time period during which the restriction applies, the date on which the notice was posted, and the signature of the Director of Public Works/Supervisor of Public Works. The notice shall be conspicuously posted at each end of the restricted portion of the way or bridge in a location clearly visible from the travel way. Whenever a restriction expires or is lifted, the notices shall be removed wherever posted. Whenever a restriction is revised or extended, existing notices shall be removed and replaced with new notices. No person may remove, obscure or otherwise tamper with any notice so posted except as provided herein.

Section 4. Exemptions

The following vehicles are exempt from this ordinance:

- (a) any two-axle vehicle while delivering home heating fuel;
- (b) any vehicle while engaged in highway maintenance or repair under the direction of the State or City;

- (d) any school transportation vehicle while transporting students;
- (e) any public utility vehicle while providing emergency service or repairs; and
- (f) any vehicle whose owner or operator holds a valid permit from the Director of Public Works/Supervisor of Public Works as provided herein.

Section 5. Permits

The owner or operator of any vehicle not otherwise exempt as provided herein may apply in writing to the Director of Public Works/Supervisor of Public Works for a permit to operate on a posted way or bridge notwithstanding the restriction. The Director of Public Works/Supervisor of Public Works may issue a permit only upon all of the following findings:

- (a) no other route is reasonably available to the applicant;
- (b) it is a matter of economic necessity and not mere convenience that the applicant use the way or bridge; and
- (c) the applicant has tendered cash, a bond or other suitable security running to the City in an amount sufficient, in the city's judgment, to repair any damage to the way or bridge which may reasonably result from the applicant's use of same.

CITY OF GARDINER CODE

Even if the Director of Public Works/Supervisor of Public Works makes the foregoing findings, he/she need not issue a permit if he/she determines the applicant's use of the way or bridge could reasonably be expected to create or aggravate a safety hazard or cause substantial damage. He/she may also limit the number of permits issued or outstanding as may, in his/her judgment, be necessary to preserve and protect the highways.

In determining whether to issue a permit, the Director of Public Works/Supervisor of Public Works shall consider the following factors:

- (a) the gross registered weight of the vehicle;
- (b) the current and anticipated condition of the way or bridge;
- (c) the number and frequency of vehicle trips proposed;
- (d) the cost and availability of materials and equipment for repairs;
- (e) the extent of use by other exempt vehicles; and
- (f) such other circumstances as may, in his/her judgment, may be relevant.

The Director of Public Works/Supervisor of Public Works may issue permits subject to reasonable conditions, including but not limited to, restrictions on the actual load weight and the number or frequency of vehicle trips, which shall be clearly noted on the permit.

Section 6. Administration and Enforcement

This ordinance shall be administered and will be enforced by the City Council's duly authorized designees (such as the Director of Public works, Supervisor of Public Works, Code Enforcement Officer, or law enforcement officer.)

Section 7. Penalties

Any violation of this ordinance shall be a civil infraction subject to a fine of not less than \$250 nor more than \$1,000. Each violation shall be deemed a separate offense. In addition to any fine, the City may seek restitution for the cost of repairs to any damaged way or bridge and reasonable attorney fees and costs. Prosecution shall be in the name of the City and shall be brought in the Maine District Court.

Section 8. Amendments

This ordinance may be amended by the City Council at any properly noticed meeting.

Section 9. Severability; Effective Date

In the event any portion of this ordinance is declared invalid by a court of competent jurisdiction, the remaining portions shall continue in full force and effect.

In this situation the cost for the removal shall be borne by the City.

1.6.6 In other situations involving boundary hazard trees, the Tree Warden shall seek the approval of the Tree Oversight Committee for the removal of the tree. The Tree Oversight Committee shall notify the abutting property owner(s) in writing of the recommendation of the Tree Warden and shall hold a public hearing on the request. If the Tree Oversight Committee determines that the boundary tree will be removed, the cost of the removal shall be split fifty percent (50%) by the City and fifty percent (50%) by the abutting property owner(s) unless the Committee by vote makes other cost sharing arrangements.

1.7.3 If the property owner has not complied with the Tree Warden's order to remove the hazard tree or eliminate the hazard within the specified time, the Tree Warden shall refer the action to the Tree Oversight Committee.

1.7.4 The Tree Oversight Committee shall notify the property owner(s) in writing of the review of the order of the Tree Warden and shall hold a public hearing on the proposed action. If the Committee determines that the tree is a hazard and will be removed, the Committee may have the Tree Warden arrange for the removal of the tree. The property owner shall be responsible for all costs associated with the removal including any services by a licensed arborist for determining the condition of the tree.

1.7.5 The property owner shall be given the opportunity to retain the wood from the tree.

Section 1.8 Removal/Pruning of Vegetation for Public Safety

Section 1.9 Definitions

1.9.1 Boundary Tree: A tree located on the property line between City or other publically-owned property and private property such that the trunk of the tree is located over the property line.

1.9.2 Hazard Tree: A tree with a structural defect, combination of defects, or disease resulting in a structural defect that under the normal range of environmental conditions at the site exhibits a high probability of failure and loss of a major structural component of the tree in a manner that will strike a target. A normal range of environmental conditions does not include meteorological anomalies, such as, but not limited to: hurricanes; hurricane-force winds; tornados; microbursts; or significant ice storm events. Hazard trees also include those trees that pose a serious and imminent risk to bank stability. A target is the area where personal injury or property damage could occur if the tree or a portion of the tree fails. Targets include roads, driveways, parking areas, structures, campsites, and any other developed area where people frequently gather and linger.

1.9.3 Private Tree: A tree that is located on private property.

1.9.4 Public Tree: A tree that is located on public property including but not limited to the rights-of-way of public roads or streets, public parks, playgrounds, and recreational facilities and public buildings and facilities.

Protection of Public Trees

SECTION

- 2.1 Care of Newly Planted Public Trees
- 2.2 Replacement of Newly Planted Trees
- 2.3 Protection of Public Trees

Section 2.1 Care of Newly Planted Public Trees

Any City department, other governmental body, or private individual or organization that plans to plant a public tree shall prepare a plan of care for the newly planted tree. A care plan for a public tree planted by a City department or other governmental body shall be prepared in consultation with the Tree Warden. A care plan for a public tree planted by a private individual or organization shall be reviewed and approved by the Tree Warden. The care plan shall address the watering and fertilizing of the tree, its protection, and its maintenance including the removal of any guy wires or similar supports.

Section 2.2 Replacement of Newly Planted Trees

If a newly planted public tree does not survive for two years from the date of planting or if the Tree Warden determines that the tree is diseased or damaged so that its survival is unlikely, the Tree Warden shall review the suitability of the location and the likely cause for its demise. If the Tree Warden determines that the location is suitable, he/she may require the department, organization, or person who planted the tree to be responsible for planting a replacement tree. The Tree Warden may as an alternative require the department, organization or person to plant a tree at another suitable location.

Section 2.3 Protection of Public Trees

2.3.1 Prior to any planned excavation within ten (10) feet of any public tree, the department, organization or person undertaking the excavation shall discuss the project with the Tree Warden to determine how to minimize the impact of the work on the tree. The Tree Warden may consult with a licensed arborist to evaluate the impact of the proposed action on the tree. If the tree is damaged by the excavation, the department, organization, or person shall be responsible for planting a replacement tree of a species and size and at a location determined in consultation with the Tree Warden.

2.3.2 When an emergency excavation is required within ten (10) feet of any public tree, the department, organization or person undertaking the excavation shall contact the Tree Warden as soon as possible to discuss how to minimize the impact of the work on the tree. Section 2820. Purpose.

This Ordinance sets forth uniform requirements for discharges into the City of Gardiner's wastewater facilities and enables the municipality to protect public health in conformity with all applicable State and Federal laws relating thereto.

The objectives of this ordinance are to:

- 1 Prevent the introduction of pollutants into the municipality's wastewater facilities which will interfere with the normal operations of the facilities or contaminate the resulting sludge;

⁶³ Ordinance No. 77-36 Section 2810-2812 adopted March 13, 1978

CITY OF GARDINER CODE

2. Prevent the introduction of pollutants into the municipality's wastewater treatment facility which will pass through the municipality's wastewater treatment facility, inadequately treated, into receiving waters or otherwise be incompatible with the municipality's wastewater treatment facility.
3. To ensure that the quality of the municipality's wastewater treatment facility sludge is maintained at a level which allows its use and disposal in compliance with applicable statutes and regulations.
4. Improve the opportunity to recycle and reclaim wastewater and sludge facilities.
5. Protect the municipality's wastewater treatment facility personnel who may be affected by the wastewater and sludge in the course of their employment and to protect the general public.
6. Provide for fees for the equitable distribution of the cost of operation, maintenance and improvement of the municipality's wastewater treatment facility.
7. Enable Gardiner to comply with its National Pollutant Discharge Elimination System (NPDES) permit conditions, sludge use and disposal requirements and any other federal or state laws to which the municipality's wastewater treatment facility is subject.

B. This Ordinance shall apply to all domestic sewage dischargers and other users of the municipality's wastewater treatment facility. This Ordinance authorizes the issuance of wastewater discharge permits; authorizes monitoring, compliance and enforcement activities; establishes administrative review procedures; requires user reporting; and provides for the setting of fees for the equitable distribution of costs resulting from the operation of the municipality's wastewater treatment facility.

This Ordinance further provides for the regulation of discharges into the municipality's wastewater facilities through the enforcement of administrative regulations. This Ordinance does not provide for the recovery of operations, maintenance or replacement costs associated with the municipal wastewater facilities or the cost associated with the construction of collection and treatment facilities used by industrial dischargers, in proportion to their use of the municipal wastewater facilities which are the subject of separate enactment.

- B. National Categorical Pretreatment Standards as promulgated by U.S. Environmental Protection Agency (EPA) pursuant to the Act and as codified in 40 CFR Chapter I, Subchapter N shall be met by all dischargers, as applicable. An Application for modification of the National Categorical Pretreatment Standards may be considered for submittal to the Regional Administrator by the municipality when the municipality's wastewater treatment system achieves consistent removal of the pollutants as defined by 40 CFR 403.7.
- C. State requirements and limitations on discharges to the municipal wastewater facilities shall be met by all dischargers that are subject to such standards in any instances in which they are more stringent than Federal requirements and limitations or those in this or any other applicable ordinance.

CITY OF GARDINER CODE

F. No dischargers shall discharge wastewater containing concentrations of toxic pollutants that cause the City's treatment plant discharge to exceed State or Federal water quality limits.

The municipality reserves the right to amend this Ordinance to include concentration-based limits for toxic pollutants. The municipality may impose mass limitations on dischargers in cases where the imposition of mass limitations is deemed appropriate by the municipality.

G. Each discharger shall provide protection from accidental discharge of prohibited or regulated materials or substances established by this Ordinance. Where necessary, facilities to prevent accidental discharge of prohibited materials shall be provided and maintained at the dischargers cost and expense. Detailed Slug Control Plans showing facilities and operating procedures to provide this protection shall be submitted to the municipality for review and shall be approved by the municipality before construction of the facility. Each existing discharger shall complete its plan and submit same to the municipality by January 1, 1983. No discharger who discharges to the municipal wastewater facilities after the aforesaid date shall be permitted to introduce pollutants into the system until Accidental Discharge Protection Procedures have been approved by the municipality. Review and approval of such plans and operating procedures by the municipality shall not relieve the discharger from the responsibility immediately upon the occurrence of a 'slug' or accidental discharge of substances prohibited by this Ordinance. The notification shall include location of discharge, date and time thereof, type of waste, concentration and volume, and corrective action. Any discharger who discharges slugs of prohibited materials shall be liable for any expense, loss or damage to the municipal wastewater facilities in addition to the amount of any fines imposed on the municipality on account thereof under State or Federal Law.

H. Duty to Comply: The industrial discharger must comply with all conditions of this Ordinance and their industrial discharge permit. Failure to comply may be grounds for administrative action or enforcement proceedings including civil or criminal penalties, injunctive relief, and summary abatements.

I. Bypass of Discharger's Pretreatment Facilities

- a) Bypass is prohibited unless it is unavoidable to prevent loss of life, personal injury, or severe property damage or no feasible alternatives exist.
- b) Upon prior notice to and the approval of the Superintendent, the discharger may allow bypass to occur which does not cause effluent limitations to be exceeded, but only if it is also for essential maintenance to assure efficient operations.
- c) Notification of bypass:
 1. Anticipate bypass. If the discharger knows in advance of the need for a bypass, it shall submit prior written notice, at least ten days before the date of the bypass, to the municipally owned treatment plant Superintendent.

CITY OF GARDINER CODE

2. Unanticipated bypass. The discharger shall immediately notify the municipally owned treatment plant Superintendent and submit a written notice to the City within 5 days. This report shall specify:
 - i. A description of the bypass, and its cause, including its duration;
 - ii. Whether the bypass has been corrected; and
 - ii. The steps being taken or to be taken to reduce, eliminate and prevent a recurrence of the bypass.

Section 2823. Fees.

- A. It is the purpose of this chapter to provide for the payment of fees from discharges to the municipality's wastewater disposal system, to compensate the municipality for the cost of administration of the pretreatment program established herein.
- B. The municipality shall adopt charges and fees which may include:
 - 1) Fees for monitoring, inspections, and surveillance procedures.
 - 2) Fees for filing appeals.
 - 3) Fees for reviewing accidental discharge procedures and construction.
 - 4) Fees for evaluating initial information regarding proposed discharges.
 - 5) Fees for processing Industrial Discharge Permit applications, modifications and renewals.
 - 6) Fees for consultant services.
 - 7) Fees for laboratory tests.
 - 8) Fees for legal services.
 - 9) All other costs associated with industrial dischargers as appropriate.

Section 2824. Administration; requirements; industrial discharge permits.

Except as otherwise provided herein, the Superintendent of the municipality's wastewater treatment facility shall administer, implement and enforce the provisions of this Ordinance. Any powers granted to or duties imposed upon the Superintendent may be delegated by the Superintendent to other qualified city personnel.
- B. Applicable law. Any reference in this Ordinance to a state or federal statute or

CITY OF GARDINER CODE

regulation or local ordinance shall mean the statute, regulation or ordinance in force on the effective date of this Ordinance or as any such statute, regulation or ordinance may be amended from time to time thereafter.

C. Unlawful Discharges. It shall be unlawful to discharge sewage, industrial wastes or other wastes to any sewer outlet within the jurisdiction of the municipality and to the municipal wastewater facilities without having first complied with the terms of this Ordinance.

D. Industrial Discharges. All industrial dischargers proposing to connect to or to discharge sewage, industrial wastes and other wastes to municipal wastewater facilities shall comply with all terms of this Ordinance.

E. Industrial Discharge Permit Requirements:

1. All nondomestic users must notify the municipality of the nature and characteristics of their wastewater prior to commencing their discharge. The municipality will provide forms for this purpose, or authorize the use of other, suitable forms.
2. It shall be unlawful for significant industrial users to discharge wastewater, either directly or indirectly, into the sanitary sewer system without first obtaining an industrial discharge permit from the City. Any violation of the terms and conditions of an industrial discharge permit shall be deemed a violation of this ordinance. Obtaining an industrial discharge permit does not relieve a permittee of its obligation to obtain other permits required by Federal, State, or local law.
3. The City may require that other industrial users, including liquid waste haulers, obtain industrial discharge permits as necessary to carry out the purpose of this chapter.
4. Any industrial user located beyond the city limits shall submit a permit application in accordance with Section D. below within 90 days of the effective date of this ordinance. New industrial users located beyond the city limits shall submit such applications to the City 180 days prior to discharging into the sanitary sewer. Upon review and approval of such application, the City may enter into a contract with the user which requires the user to subject itself to, and abide by this Chapter, including all permitting, compliance monitoring, reporting, and enforcement provisions herein.
5. Existing connections: Any significant industrial user that discharges nondomestic waste into the sanitary sewer system prior to the effective date of this ordinance and who wishes to continue such discharges in the future, shall, unless waived by the City, within ninety (90) days after said date, apply to the City for an industrial discharge permit and shall not cause or allow discharges to the sewer to continue after 180 days from and after the effective date of this ordinance except in accordance with a permit issued by the City.

CITY OF GARDINER CODE

6. New connections: Any significant industrial user proposing to begin or recommence discharging nondomestic wastes into the sanitary sewer system must obtain an industrial discharge permit prior to beginning or recommencing such discharge. An application for this permit must be filed at least 180 days prior to the anticipated startup date.

F. Industrial Discharge Permit Applications

Industrial dischargers shall complete and file with the municipality the following information on an application form provided or another otherwise approved by the municipality, and accompanied by the appropriate fee. Unless waived by the City, existing industrial dischargers shall file application forms within 30 days after the effective date of this Ordinance, and proposed new discharges shall file disclosure forms at least 90 days prior to connecting to the municipal facilities. The applications shall include:

1. Name, address, and location of the discharger;

(iii) the written authorization is submitted to the municipality.

e) If an authorization under paragraph (d) of this section is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, or overall responsibility for the environmental matters for the company, a new authorization satisfying the requirements of paragraph (d) of this section must be submitted to the City prior to or together with any reports to be signed by an authorized representative.

G. Industrial Discharger Permit Contents

Industrial discharger permits shall include such conditions as are reasonably deemed necessary by the municipality to prevent pass-through or interference, protect the quality of the water body receiving the municipally owned wastewater facilities effluent, protect worker health and safety, facilitate treatment plant sludge management and disposal, protect ambient air quality and protect against damage to the sewer system or treatment plant. Permits may contain, but need not be limited to, the following:

2. Limits on the average and/or maximum concentration, mass, or other measure of identified wastewater constituents or properties;

3. Requirements for the installation of pretreatment technology or construction of appropriate containment devices, etc., designed to reduce, eliminate, or prevent the introduction of pollutants into the treatment works;

CITY OF GARDINER CODE

4. Development and implementation of spill control plans or other special conditions including additional management practices necessary to adequately prevent accidental, unanticipated, or routine discharges;

H. Industrial Discharge Permitting Process

1 Permit Duration: Permits shall be issued for a specified time period, not to exceed five (5 years). A permit may be issued for a period less than five (5) years, at the discretion of the municipality.

2 Public Notification: The municipality will publish in a local daily newspaper, notice of intent to issue an industrial discharge permit, at least fourteen (14) days prior to issuance. The notice will indicate a location where the draft permit may be reviewed and an address where written comments may be submitted.

3 Permit Appeals: The municipality will provide all interested persons with notice of final permit decisions. Any aggrieved person, including the user, may file a petition with the City, in writing, to reconsider the terms of a wastewater discharge permit or the denial of a wastewater discharge permit application within 15 days of the permit's issuance or notification of the Superintendent's denial.

A Failure to submit a timely petition for review shall be deemed to be a waiver of the appeal.

B In its petition, the petitioner must indicate the wastewater discharge permit provisions objected to, the reasons for this objection and the alternative condition, if any, it seeks to place in the wastewater discharge permit. A petitioner seeking review of a permit denial must specifically allege reasons why a permit should be issued, along with conditions of issuance that the petitioner believes should satisfy any concerns the City may have about the suitability of the user's wastewater for discharge to the City's municipal wastewater treatment facility.

C The requirements of conditions of any wastewater discharge permit shall not be stayed by the City pending the outcome of the administrative appeal.

D Upon receipt of the petition, the Superintendent may act to grant the petitioner's request. Said action must take place within 14 days of receipt of the petition. If the Superintendent refuses to grant the petitioner's request, however, the Superintendent shall notify the City Manager in writing who will notify the City Council.

i. The City Council shall schedule an administrative hearing, which shall be recorded within 30 days of notification by the Superintendent or as soon thereafter as may be

CITY OF GARDINER CODE

- arranged. The City Council shall conduct the hearing so as to develop an adequate administrative record, and the City Council may choose to limit the asking of questions to the members of the City Council only. At the hearing, the petitioner shall have the right to be heard and offer evidence relevant to the petition. The petitioner will bear the burden of proof at the hearing and will present its case first.
- ii. The City Council shall issue its decision, in writing, within 45 days of the hearing. The City Council's decision must be guided by the provisions of this Ordinance. Failure by the City Council to issue a decision within that time period shall constitute a denial of the administrative appeal; however, the record of the administrative hearing, including any exhibits, shall be made a part of any further judicial reviews. Decisions by the City not to reconsider a wastewater discharge permit, not to issue a wastewater discharge permit, not to modify a wastewater discharge permit or to issue a modified wastewater discharge permit shall be considered final administrative actions for purposes of judicial review.
- E. Parties seeking judicial review of the final administrative action must do so by filing a complaint with the Kennebec County Superior Court within thirty (30) days pursuant to Maine Rules of Civil Procedure 80B.
4. Modifications.
- A. The Superintendent may modify at any time the wastewater discharge permit for good cause, including but not limited to the following:
 - i. To incorporate any new or revised federal, state or local pretreatment standards or requirements.
 - ii. To address significant alterations or additions to the user's operation, processes or wastewater volume or character since the issuance of the wastewater discharge permit.
 - iii. A change in the municipality's wastewater treatment facility that requires either a temporary or permanent reduction or elimination of the authorized discharge.
 - iv. Information is received by the City indicating that the permitted discharge poses a threat to the City's municipal wastewater treatment facility, City personnel or the receiving waters.
 - v. Violations of any terms or conditions of the wastewater discharge permit.
 - vi. Misrepresentations or failure to fully disclose all relevant facts in the wastewater survey form, wastewater discharge permit application or in any other required reporting.
 - vii. Revision of, or a grant of a variance from, categorical pretreatment standards pursuant to 40 CFR 403.13.

CITY OF GARDINER CODE

viii.To correct typographical or other errors or omissions in the wastewater discharge permit.

ix.To reflect transfer of the facility ownership and/or operation to a new owner/operator.

x.Upon request of the permittee, provided such request does not create a violation of any applicable requirements, standards, laws, or rules and regulations.

B.Challenges to any such modifications can be made pursuant to the provisions of Subsection H(3) of this section.

5. Permit Transfer: Permits may be reassigned or transferred to a new owner and/or operator with prior approval of the municipality:

a. The permittee must give at least thirty (30) days advance notice to the municipality.

b. The notice must include a written certification by the new owner which:

i.States that the new owner has no immediate intent to change the facility's operations and processes;

ii.Identifies the specific date on which the transfer is to occur;

iii.Acknowledges full responsibility for complying with the existing permit; and

iv.Is signed by an individual designated in Section 2824(F)(16) of this Ordinance and authorized to sign on behalf of the new owner.

6. Permit Revocation: The permit of any user which violates any condition of its permit or this Ordinance or of applicable state and federal statutes and regulations may be revoked by the Superintendent. Violations subjecting a user to possible revocation of its permit also include, but are not limited to the following:

a. Failure of a user to accurately report the wastewater constituents and characteristics of its discharge.

b. Failure of a user to report significant changes in operations or its wastewater constituents and characteristics.

c. Refusal of reasonable access by the Superintendent to the user's premises during regular business hours for the purpose of inspection or monitoring.

d. Violations of the conditions of the permit.

e. Failure to provide advance notice of the transfer of the ownership of a permitted user.

CITY OF GARDINER CODE

- f. Misrepresentation or failure to fully disclose all relevant facts in the wastewater discharge permit application, any required wastewater surveys or other required reporting.
 - g. Falsifying monitoring reports or tampering with monitoring equipment.
 - h. Failure to pay surcharges, user fees, permit fees, fines or other required payments.
 - i. Failure to meet the requirements of a compliance schedule.
7. **Permit Reissuance:** The industrial discharger shall apply for permit reissuance by submitting a complete permit application a minimum of ninety (90) days prior to the expiration of the existing permit.
8. **Continuation of Expired Permits:** An expired permit will continue to be effective and enforceable until the permit is reissued if:
- a. The industrial discharger has submitted a complete permit application at least ninety (90) days prior to expiration date of the user's existing permit; and
 - b. The failure to reissue the permit, prior to expiration of the previous permit, is not due to any act or failure to act on the part of the industrial discharger.
9. **Special Agreements:** Nothing in this ordinance shall be construed as preventing any special agreement or arrangement between the municipality and any industrial user whereby wastewater of unusual strength or character is accepted into the municipally owned treatment works and specially treated and subject to any payments or user charges, as may be applicable. However, no discharge which violates pretreatment standards will be allowed under the terms of such special agreements. If, in the opinion of the City, the wastewater may have the potential to cause or result in any of the following circumstances, no such special agreement will be made:
- a. Pass through or interference.
 - b. Endanger municipal employees or the public.
- I. The municipality reserves the right to amend this Ordinance and the term's conditions thereof in order to assure compliance by the municipality with applicable laws and regulations. All National Categorical Pretreatment Standards are hereby adopted by the municipality as part of this Ordinance. When a discharger becomes subject to a National Categorical Pretreatment Standard, the discharger shall file a notice to the municipality within 180 days after the promulgation of the applicable National Categorical Pretreatment Standard by the U.S. EPA. In addition, any discharger operating on the basis of information provided in a disclosure submitted previous to the adoption of this ordinance as amended, shall submit to the municipality within 180 days after the promulgation of an applicable National Categorical Pretreatment Standard, the additional information required by paragraph 11 and 12 of Section 2824

CITY OF GARDINER CODE

(D). The discharger shall be informed of any proposed changes in their discharge permit and/or Ordinance at least 30 days prior to the effective date of change. Any changes or new conditions set forth in the Ordinance shall include a reasonable time schedule for compliance.

J. Reporting Requirements

1. All permitted dischargers must, within 90 days following the date for final compliance by the discharger with applicable permit limits and Pretreatment Standards set forth in this Ordinance or 90 days following commencement of the introduction of wastewater into the municipal wastewater facilities by a new discharger, shall submit to the municipality a report indicating the nature and concentration of all known or suspected prohibited and/or regulated substances contained in its discharge, and the average and maximum daily flow in gallons. The report shall state whether the applicable permit limits or Pretreatment Standards or Requirements are being met on a consistent basis and, if not, what additional O & M and/or pretreatment is necessary to bring the discharge into compliance with the applicable Pretreatment Standards or Requirements. This Statement shall be signed by an authorized representative of the discharger.

2. All permitted dischargers and those subject to a National Categorical Pretreatment Standard as adopted by this Ordinance, after the compliance date of such National Categorical Pretreatment Standard, or, in the case of a new discharger, after commencement of the discharge to the municipality shall submit to the municipality during the months of June and December unless required more frequently by the municipality in the industrial discharge permit, a report indicating the nature and concentrations of known or suspected prohibited and/or regulated substances in the effluent which are limited by the permit and National Categorical Pretreatment Standards. In addition, this report shall include a record of all measured or estimated average and maximum daily flows during the report period. Flows shall be reported on the basis of actual measurement, provided however, where costs or feasibility considerations justify, the municipality may accept reports of average and maximum flows estimated by verifiable techniques. The municipality for good cause shown considering such factors as local high or low flow rates, holidays, budget cycles, or other extenuating factors may authorize the submission of said reports in months other than those specified above.

Reports of discharges shall contain all results of sampling and analysis of the discharge, including the flow and the nature and concentrations, or production and mass where required by the municipality. The frequency of monitoring by the discharger shall be as prescribed in the industrial discharger permit and applicable National Categorical Pretreatment Standard. All analyses shall be performed in accordance with 40 CFR, Part 136 and amendments thereto. (Comment: Where 40 CFR, Part 136 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be performed in accordance with the procedures set forth in the EPA publication, Sampling and Analysis Procedures for Screening of Industrial Effluents for Priority Pollutants, April 1977, and amendments thereto, or with any other sampling and analytical procedures approved by the Administrator of the U.S. EPA).

CITY OF GARDINER CODE

3. The discharger shall give notice to the municipality 90 days prior to any facility expansion, production increase, or process modifications which result in new or substantially increased discharges or a change in the nature of the discharge.

4 The discharger shall give advance notice to the municipality of any planned changes in the permitted facility or activity that may result in noncompliance with permit requirements.

5 In addition to all other requirements of this Ordinance, any user which discharges hazardous waste into the municipality's wastewater treatment facility shall notify the municipality's wastewater treatment facility, the EPA Regional Waste Management Division Director and Maine hazardous waste authorities, in writing, within five days of the discharge, of any such discharge. Such notification must include the name of the hazardous waste as set forth in 40 CFR 261, the EPA hazardous waste number, the type of discharge (continuous, batch or other) and the user's plan to avoid future discharges of the same or other hazardous waste. Such notification shall not relieve the user of any expense, loss, damage or other liability which may be incurred as a result of damage to the municipality's wastewater treatment facility, natural resources or other damage to person or property, nor shall such notification relieve the user of any fines, penalties or other liability which may be imposed pursuant to this Ordinance.

6 If sampling performed by a user indicates a violation, the user must notify the Superintendent within 24 hours of becoming aware of the violation. Upon the request of the Superintendent, the user shall also repeat the sampling and analysis and submit the results of the repeat analysis to the Superintendent within 30 days after becoming aware of the violation. The user is not required to resample if the municipality's wastewater treatment facility monitors at the users facility at least once a month or if the municipality's wastewater treatment facility samples between the users initial sampling and when the user receives the results of this sampling.

7 All pollutant analyses, including sampling techniques, to be submitted as part of a wastewater discharge permit application or a report required by this Ordinance shall be performed in accordance with the techniques prescribed in 40 CFR 136, unless otherwise specified in an applicable categorical pretreatment standard. If 40 CFR 136 does not contain sampling or analytical techniques for the pollutant in question, sampling and analyses must be performed in accordance with appropriate procedures approved by the EPA.

8 Sample collection.

- a. Except as indicated in Subsection 8(b) below, the user must collect wastewater samples using proportional collection techniques. In the event that flow proportional sampling is infeasible, the Superintendent may authorize the use of time proportional sampling or a minimum of four grab samples where the user demonstrates that this will provide a representative sample of the effluent being discharged. In addition, grab samples may be required to show compliance with instantaneous discharge limits.
- b. Samples for oil and grease, temperature, pH, cyanide, phenols, toxicity, sulfides and volatile organic chemicals must be obtained using grab sample collection techniques.

CITY OF GARDINER CODE

9. Timing. Written reports will be deemed to have been submitted on the date postmarked. For reports which are not mailed, postage prepaid, into a mail facility serviced by the United States Postal Service, the date of receipt of the report shall control.

K. Monitoring

Each discharger shall provide and operate at the dischargers own expense, a monitoring facility to allow inspection, sampling, and flow measurement of each sewer discharge to the municipality. Each monitoring facility shall be situated on the dischargers premises, except where such a location would be impractical or cause undue hardship on the discharger, the municipality may concur with the facility being constructed in the public street or sidewalk area providing that it is located so that it will not be obstructed by landscaping or parked vehicles. There shall be ample room in or near such sampling facility to allow accurate sampling and preparation of samples for analysis. The facility, sampling, and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the discharger. All monitoring facilities shall be constructed and maintained in accordance with all applicable local construction standards and specifications. Construction shall be completed within 120 days of receipt of a permit by the discharger.

L. Inspections

1. Inspection and sampling. The City shall have the right to enter the facilities of any user to ascertain whether the purpose of this Ordinance, and any permit or order issued hereunder, is being met and whether the user is complying with all requirements thereof. The discharger shall allow the municipality or its representatives to enter upon the premises of the discharger at all reasonable hours, for the purpose of inspection, sampling, or records examination. The municipality shall have the right to set up on the dischargers property such devices as are necessary and/or metering operations.

2. Administrative inspection warrants. If the Superintendent has been refused access to any building, structure or property, or any part thereof, for the purpose of inspecting, sampling or otherwise monitoring compliance with this Ordinance, the Superintendent shall seek to secure an administrative inspection warrant pursuant to Maine Rules of Civil Procedure 80E. The warrant, if issued by the District Court, shall be executed pursuant to Maine Rules of Civil Procedure 80E, and the Superintendent shall be accompanied by a uniformed City police officer during said execution.

M. Confidentiality

Information and data furnished to the municipality with respect to the nature and frequency of discharge shall be available to the public or other governmental agency without restriction unless the discharger specifically requests and is able to demonstrate to the satisfaction of the municipality that the release of such information would divulge information, processes or methods of production entitled to protections as trade secrets or proprietary information of the discharger.

CITY OF GARDINER CODE

When requested by a discharger furnishing a report, the portions of a report which may disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available upon written request to governmental agencies for uses related to this Ordinance, the National Pollutant Discharge Elimination System (NPDES) Permit, State of Maine Waste Discharge License and/or the Pretreatment Programs; provided, however, that such portions of a report shall be available for use by the State or any state agency in judicial review of enforcement proceedings involving the discharger furnishing the report.

Wastewater constituents and characteristics will not be recognized as confidential information. Information accepted by the municipality as confidential, shall not be transmitted to any governmental agency or to the general public by the municipality until and unless a ten-day notification is given to the discharger.

Section 2825. Enforcement

A. Administrative Enforcement Remedies.

1. Notice of violation (_NOV_). When the Superintendent finds that a user has violated or continues to violate any provision of this chapter, a wastewater discharge permit or order issued hereunder or any other pretreatment standard or requirement, the Superintendent may serve upon that user a written NOV. Within 30 days of receipt of this notice, an explanation of the violation and a plan for the satisfactory correction and prevention thereof, which must include specific required actions, shall be submitted by the user to the Superintendent. Submission of this plan in no way relieves the user of liability for any violations occurring before or after receipt of the NOV.
2. Consent orders. The Superintendent may enter into consent orders, assurances of voluntary compliance or other documents establishing an agreement with any user responsible for noncompliance. Such documents will include specific action to be taken by the user to correct the noncompliance within a time period specified by the document. Such documents shall have the same force and effect as the administrative orders issued pursuant to Subsections E and F of this section and shall include language which make them judicially enforceable. Such orders may require the payment of administrative fines pursuant to Section 2826(A)(1).
3. Show cause hearing. The Superintendent may order a user which has violated or continues to violate any provision of this Ordinance, a wastewater discharge permit, or order issued hereunder or any other pretreatment standard or requirement to appear before the Superintendent and show cause why the proposed enforcement should not be taken. Notice shall be served on the user specifying the time and place for the meeting, the proposed enforcement action, the reasons for such action and a request that the user show cause why the proposed enforcement action should not be taken. The notice of the meeting shall be served personally by the Superintendent or by registered or certified mail, return receipt requested, at least 14 days prior to the hearing. Such notice may be served on any authorized representative of the user. A show cause hearing shall not be a bar against, or a prerequisite for, taking any other action against

CITY OF GARDINER CODE

the user. Failure to appear for a show cause hearing may be grounds for revocation of the user's wastewater discharge permit and disconnection from or termination of discharge to the municipality's wastewater treatment facility.

4. Compliance orders. When the Superintendent finds that a user has violated or continues to violate any provision of this Ordinance, a wastewater discharge permit or order issued hereunder or any other pretreatment standard or requirement, the Superintendent may issue an order to the user responsible for the discharge directing that the user comes into compliance within 30 days. If the user does not come into compliance within 30 days, sewer service shall be discontinued unless adequate treatment facilities, devices or other related appurtenances are installed and properly operated. Compliance orders may also contain other requirements to address the noncompliance, including additional self-monitoring and management practices designed to minimize the amount of pollutants discharged to the municipality's wastewater treatment facility. A compliance order may not extend the deadline for compliance established for a federal pretreatment standard or requirement, nor does a compliance order relieve the user of liability for any violation, including any continuing violation. Issuance of a compliance order shall not be a bar against, or a prerequisite for, taking any other action against the user.
5. Cease and desist orders.
 - a. When the Superintendent determines that a user violated or continues to violate any provision of this chapter, a wastewater discharge permit or order issued hereunder or any other pretreatment standard or requirement or that the user's past violations are likely to recur, the Superintendent may issue an order for the user directing it to cease and desist any such violations and directing the user to:
 - i. Immediately comply with all requirements; and
 - ii. Take such appropriate remedial or preventative action as may be needed to properly address a continuing or threatened violation, including halting operations and/or terminating the discharge to the municipality's wastewater treatment facility.
 - b. Issuance of a cease and desist order shall not be a bar against, or a prerequisite for, taking any other action against the user.
6. Emergency suspensions. The Superintendent may immediately suspend a user's discharge either with or without written or verbal notice to the user whenever such suspension is necessary to stop an actual or threatened discharge which reasonably appears to present or cause an imminent or substantial endangerment to the health or welfare of the public. The Superintendent may also immediately suspend a user's discharge, either with or without written or verbal notice, that threatens to interfere with the operation of the municipality's wastewater treatment facility or which presents or may present an endangerment to the environment.

CITY OF GARDINER CODE

- a. Any user notified of a suspension of its discharge shall immediately stop or eliminate its discharge to the municipality's wastewater treatment facility. In the event of a user's failure to immediately comply voluntarily with the suspension order, the Superintendent shall take such steps as deemed necessary, including immediate severance of the connection to the municipality's wastewater treatment facility, to prevent or minimize damage to the municipality's wastewater treatment facility, its receiving waters or endangerment to any persons. The Superintendent shall allow the user to recommence its discharge when the user has demonstrated to the satisfaction of the City that the period of endangerment has passed, unless the termination proceedings in Subsection A(7) of this section are initiated against the user.
- b. A user that is responsible, in whole or in part, for any discharge presenting imminent endangerment shall submit a detailed written statement to the Superintendent describing the causes of the harmful contribution and the measures taken to prevent any future occurrence. Said report must be submitted at least seven days prior to the date of any show cause or termination hearing held pursuant to Subsections A(3) and A(7) of this section.
- c. Nothing in this subsection shall be interpreted as requiring a hearing prior to any emergency suspension under this subsection.

7. Termination of discharge.

- a. In addition to the provisions in § 2824(H)(6) of this Ordinance, any user that violates the following conditions is subject to termination of the user's discharge to the municipality's wastewater treatment facility:
 - i. Violation of wastewater discharge permit conditions;
 - ii. Failure to accurately report the wastewater constituents and characteristics of the user's discharge;
 - iii. Failure to report significant changes in operations or wastewater volume, constituents and characteristics prior to discharge;
 - iv. Refusal of reasonable access to the user's premises for the purpose of inspection, monitoring or sampling; or
 - v. Violation of the pretreatment standards in this Ordinance.
- b. Such user will be notified of the proposed termination of its discharge and be offered an opportunity to show cause pursuant to Subsection A(3) of this section why the proposed action should not be taken. Additionally, the user may request an administrative hearing, in writing, within 30 days of the decision of the show cause hearing. The hearing shall be conducted in accordance with the procedures delineated in § 2826(A)(3) of this section. Exercise of this

CITY OF GARDINER CODE

option by the City shall not be a bar to, or a prerequisite for, taking any other action against the user.

B. Judicial Enforcement Remedies.

1. Injunctive relief. When the Superintendent determines that a user has violated or continues to violate any provision of this Ordinance, a wastewater discharge permit or order issued hereunder or any other pretreatment standard or requirement, the Superintendent may request that the Attorney for the municipality seek appropriate injunctive relief pursuant to the laws of this state which restrains or compels the specific performance of the conditions of the wastewater discharge permit, order or other requirements imposed by this Ordinance on activities of the user. The City may also seek such other action as is appropriate for legal and/or equitable relief, including a requirement for the user to conduct environmental remediation. The decision whether to seek injunctive relief shall not be a bar against, or a prerequisite for, taking other action against a user.

C. Supplemental Enforcement Action.

1. Performance bonds. The Superintendent may decline to issue or reissue a wastewater discharge permit to any user which has failed to comply with any provision of this Ordinance, a previous wastewater discharge permit or order issued hereunder or any other pretreatment standard or requirement unless such user first files a satisfactory bond with the City, payable to the City, in a sum not to exceed a value determined by the Superintendent to be necessary to achieve consistent compliance with this Ordinance.
2. Liability Insurance. The Superintendent may decline to issue or reissue a wastewater discharge permit to any user which has failed to comply with any provision of this Ordinance, a previous wastewater discharge permit or order issued hereunder or any pretreatment standard or requirement unless the user first submits proof that it has obtained financial assurances sufficient to restore or repair damage to the municipality's wastewater treatment facility caused by its discharge, which shall include naming the City as an additional insured.
3. Water supply severance. Whenever a user violates or continues to violate any provision of this Ordinance, a wastewater discharge permit or order issued hereunder or any other pretreatment standard or requirement, the City will work with the Gardiner Water District to sever water service to the user under district regulations or by laws, as applicable. Service will only recommence at the user's expense, after the user has satisfactorily demonstrated its ability to comply with this Ordinance.

- D. Remedies not exclusive. The provisions of this Ordinance are not exclusive remedies. The City reserves the right to take any and all enforcement actions or combinations thereof against a noncompliant user.

CITY OF GARDINER CODE

E. A list of all significant industrial users discharges which were the subject of enforcement proceedings pursuant to Sections 2825 of this Ordinance during the twelve (12) previous months, shall be annually published by the municipality in the largest daily newspaper, published in the municipality in which the municipality is located, or by the largest daily newspaper servicing the municipality summarizing the enforcement actions taken against the charges during the same twelve (12) months whose violations remained uncorrected 45 or more days after notification of non-compliance; or which have exhibited a pattern of non-compliance over that twelve month period, or which involve failure to accurately report non-compliance.

F. Any discharger or any interested party shall have the right to request in writing an interpretation of ruling by the municipality on any matter covered by this Ordinance and shall be entitled to a prompt written reply. Appeal of any final judicial order entered pursuant to this Ordinance may be taken in accordance with local and state law.

G. Any discharger that experiences an upset in operations, which places the discharge in a temporary state of noncompliance with the provisions of their permit or this Ordinance shall inform the municipality thereof within 24 hours of first awareness of the commencement of the upset. An upset is an exceptional incident caused by factors beyond the reasonable control of the discharger. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation. Where such information is given orally, A written follow-up report thereof shall be filed by the discharger with the municipality within five days. The report shall specify:

1. Description of the upset, the cause(s) thereof and the upset's impact on the discharger's compliance status.
2. Duration of noncompliance, including exact dates and times of noncompliance, and if the noncompliance continues, the anticipated time the noncompliance is expected to continue. by which compliance is reasonably expected to occur.
3. All steps taken or to be taken to reduce, eliminate and prevent recurrence of such an upset or other conditions of noncompliance.

A documented and verified bonafide operating upset, as defined in 40 CFR Part 403.16(c) shall be an affirmative defense to any enforcement action brought against the discharger for violations attributable to the upset event. by the municipality against a discharger for any noncompliance with the Ordinance which arises out of violations alleged to have occurred during the period of upset.

In any enforcement proceeding the discharger seeking to establish the occurrence of an upset shall have the burden of proof.

Section 2826. Fines and Penalties.

A Administrative fines.

CITY OF GARDINER CODE

1. When the Superintendent finds that a user violated or continues to violate any provision of this Ordinance, a wastewater discharge permit or order issued hereunder or any other pretreatment standard or requirement, including a user's failure to obtain a wastewater discharge permit pursuant to this Ordinance, the Superintendent may fine such user in an amount not to exceed \$2,500 per day. Each day of violation shall constitute a separate offense subject to fine. In the case of monthly or other long-term average discharge limits, fines shall be assessed for each day during the period of violation. In the case of failure to obtain a required wastewater discharge permit, the fine shall accrue on a daily basis commencing on the day the user first was notified or became aware of the need for such a permit. The City may add the costs of preparing administrative enforcement actions, such as notices and orders, to any fine assessed.
2. Any and all unpaid charges, fines and penalties under this Ordinance shall, after 30 calendar days from the due date, be assessed an additional penalty of 12% of the unpaid balance, and interest shall accrue thereafter at a rate of 1% per month. A lien against the user's property may be sought for unpaid charges, fines and penalties as allowed under state law.
3. Users desiring to dispute such fines must file a written request with the Superintendent for the City Council to reconsider the fine along with full payment of the fine amount within 30 days of being notified of the fine. The City Council shall convene an administrative hearing on the matter and conduct said hearing in accordance with procedures delineated in § 2824 (H)(3) of this Ordinance. Failure to timely request an administrative hearing constitutes a waiver of any administrative appeal. The decision of the City Council, including a decision to not reduce the fine, shall be final, and any appeal must follow the requirements of Maine Rules of Civil Procedure 80B. In the event that the user's appeal is successful, the payment, together with any interest accruing thereon, shall be returned to the user.
4. Issuance of an administrative fine shall not be a bar against, or a prerequisite for, taking any other action against the user.

B. Judicial Penalties.

1. Civil penalties and criminal referral.

- a. Any person who violates the provisions of this Ordinance shall be subject to civil penalties pursuant to 30-A M.R.S.A. § 4452, as well as applicable civil or criminal penalties pursuant to 38 M.R.S.A. §§ 349 and 1319-T. - b. A user which has violated or continues to violate any provision of this Ordinance, a wastewater discharge permit or other permit issued hereunder or any other pretreatment standard or requirement shall be required to pay a fine of not less than \$1,000 per day and not more than \$2,500 per day for each and every day of a violation for a first offense. These fines shall increase to a minimum of \$2,500 per day and a maximum of \$25,000 per day for a second offense of the same or a similar nature occurring within

- c. Pursuant to 30-A M.R.S.A. § 4452 and Maine Rules of Civil Procedure 80K, the City may seek reasonable attorney fees, court costs and other expenses associated with enforcement activities, including sampling and monitoring expenses, and the cost of any actual damages incurred by the City.
 - d. In determining the amount of civil liability, the court shall be asked to take into account all relevant circumstances, including but not limited to the extent of harm caused by the violation, the magnitude and duration, any economic benefit gained through the user's violation, corrective actions undertaken by the user, the compliance history of the user and any other factor as justice requires.
 - e. No person shall willfully or negligently break, damage, destroy, uncover, deface, tamper with or prevent access to any structure, appurtenance or equipment or other part of, or otherwise harm, the municipality's wastewater treatment facility. CITY OF GARDINER CODE

The City: The City of Gardiner

This Ordinance: Title 27, Chapter 4 of the Ordinances of the City of Gardiner, pertaining to water and sewer service, as the same may be amended from time to time.

Section 2862. Rate Components

Except as otherwise provided in this Chapter, sewer rate schedules established by the City Council shall include the following rate components:

a) Minimum or Standby Charges.

Sewer rate schedules established by the City Council shall include a minimum or standby charge for each improved property connected to the City's wastewater facilities. The minimum or standby charge shall be designed to recover all fixed costs of maintaining and repairing the City's wastewater facilities on an annual basis, including capital depreciation and reserve requirements and annual debt service payments on wastewater facilities capital projects. The City Council shall determine the amount of the annual minimum or standby charge

b) Metered Flow Charges.

Sewer rate schedules established by the City Council shall include an additional charge based on metered water flow for each improved property connected to the City's wastewater facilities. This charge shall be designed to recover all variable costs of operating the City's wastewater facilities on an annual basis, including necessary operating reserves, water treatment, administration, and related costs. The City of Gardiner shall provide, install and read metering equipment on any residential water supply not connected to the Gardiner Water District for the purpose of determining the volume of water used upon which flow charges shall be computed. Owners of commercial and industrial properties connected to the City's wastewater facilities who obtain water from sources other than the Gardiner Water District shall provide metering equipment for the water supply and shall report water usage quarterly to the City of Gardiner for the purpose of computing flow charges.

SECTION 2, all tables for sewer charges in the City of Gardiner Ordinances applicable to improved properties located within the City of Gardiner that are connected to the City's wastewater facilities for sewer service provided by the City, including Table 1, Table 2, and Table 3 of the Sewer Ordinance, are hereby repealed and replaced by tables for sewer charges to be designated as Table A and Table B as of July 1, 2012.

SECTION 3, "EFFECTIVE DATE": Article 2, Section 7 of the City of Gardiner Charter provides that ordinances shall take effect and be in full force 30 days from and after they have received final passage by the City Council. Consistent with this

CITY OF GARDINER CODE

Charter provision, this ordinance amendment shall take effect on July 1, 2012, more than 30 days from the date of final passage indicated below.

Section 2863. External Water Usage.

All sewer users may provide additional water metering equipment to meter water usage that does not drain into the City's wastewater facilities. Where such metering is provided, the volume of reported water usage not drained into the City's wastewater facilities will be deducted from the volume of water usage on which flow charges under section 2682(b) are to be based, prior to computation of the charge. (also see Section 2868 Abatements (f) outside meters)

Section 2864. Surcharges.

Sewer users or properties discharging into the City's wastewater facilities whose waste strength exceeds the limits established in sections 2822 or 2875 of this Ordinance shall be assessed a surcharge by the Superintendent, based on wastewater sample analyses conducted by the City but paid for by the sewer user. All surcharges under this section shall be in addition to charges for sewer rates established under section 2862 above. Assessment and payment of a surcharge under this section shall not constitute a license or approval the discharge concerned, and shall not bar enforcement action by the City under other provisions of this Ordinance.

Section 2865. Inter-Municipal Charges.

Sewer use charges to be paid by the Towns of Farmingdale and Randolph shall be based on wastewater flow and waste strength, in accordance with the terms of the inter-municipal sewage disposal agreement existing between those Towns and the City of Gardiner, or such future agreements or amendments thereto as may be negotiated.

Section 2866. Special Industrial Waste.

No provision of this Ordinance shall be construed as requiring the City to accept for discharge into the City's wastewater facilities any industrial waste of unusual strength or character. Industrial waste of significant industrial users, or that exceeds the waste strength limits of sections 2822 or 2875 of this Ordinance, shall be accepted for discharge into the City's wastewater facilities only after entering into a written wastewater discharge agreement with the industrial user concerned, providing for all aspects of the handling and treatment of said industrial waste, including industrial pretreatment when required under Chapter 2 of this Ordinance.

Section 2867. Other Charges.

Building sewer permit and inspection fees and capital cost connection fees established under section 2874 of this Ordinance shall be in addition to the sewer use charges established under this Chapter. In addition, the City Council may assess benefitted properties a proportionate share of the cost of any new sewer extension constructed by the City after May 1, 2001, in

CITY OF GARDINER CODE

accordance with the provisions of 30-A MRSA sec. 3441-3445. Assessments toward the cost of any new sewer extensions beyond the corporate limits of the City of Gardiner will be based on negotiated agreements with the Towns concerned.

Section 2868. Abatements.

Any readings received outside of that's quarter's billing cycle will not be eligible for an abatement. Also, if the previous quarter was denied for being outside the abatement timeline, the next quarter will only be abated at ½ since it cannot be determined when the usage occurred.

To be eligible for an abatement, all water meters must measure in hcf and be approved by the Wastewater Superintendent. Meters are available for purchase through the Superintendent.

If the blockage is found within the public right of way, the City shall bear the costs for clearing the blockage. The City shall not be responsible for any costs for work not authorized by the City Manager, and shall not be responsible for replacement of any building sewer within the private property.

Section 2875. Use of Public Sewers.

- a) No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.
- b) Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designed as combined sewers or storm sewers, or to a natural outlet approved by the City. Industrial cooling water or unpolluted process waters may be discharged, on approval of the City to a storm sewer, combined sewer, or natural outlet.
- c) No person shall discharge or cause or allow to be discharged into any sewer under the control of the City, the hereinafter described substances, materials, waters, or wastes if it appears likely in the opinion of the City that such wastes in quantity or quality exceed limitations established by the City, can harm either the sewers, wastewater treatment process, or equipment, have any adverse effect on the receiving waters, or can otherwise endanger life, limb, public property, or constitute a nuisance.
- d) Persons, including industries, who desire to discharge industrial waste into City facilities or facilities appurtenant thereto shall make their requests in writing to the City. In forming its opinion as to the limitations on acceptability of any wastes, the City will give consideration to such factors as the quantities of subject wastes in relation to the capacity of sewers, flows and velocities in the sewers, materials of construction of the sewers, nature of the wastewater treatment process, capacity of the wastewater treatment plant, heavy metal limitations of sludge disposal, degree of treatability of wastes in the wastewater treatment plant, and other pertinent factors. The City may require the applicant to submit an application for an industrial discharge permit and furnish such analyses of the proposed wastewater discharge as

CITY OF GARDINER CODE

may be needed to determine its acceptability for discharge into the sewer system and as required by State and Federal regulations.

- e) Costs for unauthorized additional treatment on or for repairing damages to City facilities, resulting due to violations of the City's rules and regulations, are to be reimbursed to the City by the person or industry discharging the wastewater which caused the adverse effect.
- f) The amounts and concentrations given in this section are for guidance and may be modified by the City if circumstances justify such modification. Wastewaters and wastes prohibited include:
 - 1) Any waters or wastes containing toxic pollutants, heavy metals, or poisonous solids, liquids, or gases, in sufficient quantity, either singly or by interaction with other wastes, injure or interfere with sludge disposal and sludge utilization, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the water receiving effluent from wastewater works.
 - 2) Any wastewater liquid or vapor having a temperature higher than 140 degrees F (60 degrees C) at the connection point to the public sewer and/or which will inhibit the biological activity of the wastewater works.
 - 3) Any wastewater containing caustic alkalinity calculated at CaCo₃, Calcium Carbonate, in excess of 75 milligrams per liter (mg/l), or in volumes which may be determined by the City to be excessive.
 - 4) Any waters or wastes having a pH lower than 5.0 or higher than 9.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the wastewater works.
 - 5) Any waters of waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperatures between 32 degrees F and 140 degrees F (0 degrees and 60 degrees C).
 - 6) Any gasoline, kerosene, benzene, naphtha, alcohol, fuel oil, crude oil, lubricating oils, or other flammable or explosive liquid, solid or gas; and in no case pollutants with a closed cup flashpoint of less than one-hundred forty (140) degrees F (60 degrees C) or pollutants which cause an exceedence of ten (10) percent of the Lower Explosive Limit (LEL) at any point within the municipally owned treatment works.
 - 7) Any noxious or malodorous solids, liquids, or gases, which either singly or by interaction with other waste, are capable of creating a public nuisance or hazard to life, or are or may be sufficient to prevent entry into a sewer for its

CITY OF GARDINER CODE

maintenance and repair, including pollutants which result in the presence of toxic gases, vapors or fumes.

- 8) Any unpolluted water including, but not limited to, water from cooling systems or of stormwater origin, which will increase the hydraulic load on the wastewater works.
- 9) Any solids or viscous substances in quantities or of such size capable of causing obstruction of the flow in the sewer, or other interference with the proper operation of the wastewater works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, waste, paper, unground garbage, whole blood, paunch manure, hair, fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
- 10) Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with motor of three-fourths (3/4) horsepower (0.76 hp metric) or greater shall be subject to the review and approval of the City.
- 11) Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite wastewater at the wastewater treatment works exceeds the limits established by the City for such materials.
- 12) Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the City as necessary, after treatment of the composite wastewater to meet the requirements of the State, Federal, or other public agencies or jurisdiction for such discharge to the receiving waters.
- 13) Any radioactive wastes or isotopes in excessive amounts.
- 14) Any wastewater containing:
 - a) Excessive concentrations of suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of excessive dissolved solids (such as, but not limited to, sodium chloride, and sodium sulfate). Average concentrations of suspended solids greater than 250 mg/l will be considered excessive.
 - b) Materials which may cause excessive discoloration (such as, but not limited to, dye wastes, vegetable tanning solutions).

CITY OF GARDINER CODE

- c) Materials which cause unusual BOD, chemical oxygen demand, or chlorine requirements in excessive amounts. Average concentrations of BOD greater than 250 mg/l will be considered excessive.
 - d) Materials in such concentrations as to constitute a 'slug' as defined in Article I, Section 3 which would cause a treatment process upset or loss of treatment efficiency.
 - e) Materials which are not amenable to treatment or reduction by the wastewater treatment processes employed, or are amenable to treatment only to such a limited degree that the wastewater treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters, or wastewater containing constituents whose removal requires increased cost of operation of the wastewater treatment plant.
- 15) Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not.
- g). If any wastewater or wastes are discharged, or are proposed to be discharged to public sewers, which may contain characteristics as outlined in Subsection (f) of this Article, the City may:
- 1. Reject the wastewater or wastes;
 - 2. Require pretreatment of wastewater or wastes to modify them to any acceptable condition for discharge to the public sewers;
 - 3. Require control over the quantities and rates of discharge, of the wastewater or wastes; and/or
 - 4. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provision of Subsection 27 of the section.
- If the City permits the pretreatment or equalization of wastewater or waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the city and subject to the requirements of all applicable codes, ordinances, laws, rules and regulations of the City. Any costs involved with such reviews shall be paid by the Applicant requesting the permit.
- h) Grease, oil and sand interceptors shall be provided at the point of discharge, when, in the opinion of the City, they are necessary for the proper handling of liquid wastes containing grease in excessive amount or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of type and capacity

CITY OF GARDINER CODE

approved by the city and shall be located as to be readily and easily accessible for cleaning and inspection. The installation and material cost of such grease, oil, and sand interceptors shall be the responsibility of the property owner producing the waste discharge.

- i) Where preliminary treatment or flow-equalizing facilities are provided for any wastewater or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
- j) When required by the City, the owner of any property services by a building sewer carrying industrial wastes shall install a suitable control structure together with such necessary meters, and other appurtenances in the building sewer to facilitate observation, sampling and measurement of the wastewater or wastes. Such structures, when required, shall be accessible and safely located and shall be constructed in accordance with plans approved by the City. The structure shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.
- k) All measurements, tests, and analyses of the characteristics of wastewaters and wastes to which reference is made in this ordinance shall be determined in accordance with the latest edition of 'standards Methods for the Examination of Water and Wastewater_', published by the American Public Health Association, and shall be determined at the control structure provided, or from suitable samples taken at said control structure. In the event that no special structure has been required by the City, samples shall be taken at suitable locations within the establishment from which the wastewaters are being discharged. Sampling shall be carried out by accepted methods specifically designed to obtain representative samples of the total wastewater discharge and of slugs if any occur. (The particulate analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a separate sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pHs are determined from compliance determination with periodic grab samples). Frequency of sampling for compliance determination with respect to Subsection (f) shall be established by the City on an individual basis. However, it is the intention of the City to conduct compliance sample for all industries users at least once every one-year period. Any cost involved in examination and tests shall be paid by the individual industry. The City may check these tests as necessary.
- l) All industries discharging into a public sewer shall perform such monitoring of their discharges as the City and/or other duly authorized employees of the City may reasonably require, including installation, use and maintenance of monitoring equipment, keeping records and reporting the results of such monitoring to the City. Such records shall be made available upon request by the City to other agencies receiving waters.

CITY OF GARDINER CODE

- m) If any accidental discharge of prohibited or regulated pollutants to the wastewater works should occur, the industrial facility responsible for such discharge shall immediately notify the City so that corrective actions may be taken to protect the wastewater works. In addition, a written report addressed to the City detailing the date, time and cause of the accidental discharge, the quantity and characteristics of the discharge and corrective action taken to prevent future discharges, shall be filed by the responsible industrial facility within five (5) days of the occurrence of the accidental discharge.
- n) No statement contained in this article shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment thereof, by the industrial concern.

Section 2876. Service Charges.

- a) An annual service charge for the use of public sewers and wastewater treatment works shall be paid to the City each year. The money so received shall be applied to the payment of costs of operation and maintenance of the Wastewater works. This charge or tax established shall be levied against any and all person owning lots or premises so benefited or served, shall have priority over any other claims except for claims for taxes, and may be enforced and collect by the Treasurer of the City of Gardiner as provided by law.

Section 2877. Protection from Damage.

- a) No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is part of the wastewater works. Any person violating this provision shall be subject to immediate arrest and punishable by law.

Section 2878. Powers and Authority of Inspectors.

- a) The City bearing proper credential and identification shall be permitted to enter all properties for the purpose of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this ordinance. The City shall have no authority to inquire into any processes including metallurgical, chemical, oil, refining, ceramic paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for wastewater treatment.
- b) While performing the necessary work on private properties referred to in Section 2878 (a) above, the City shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the City employees and the City shall indemnify the company against loss or damage to its property by City employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the gauging

CITY OF GARDINER CODE

and sampling operations, except as may be caused by negligence or failure of the company to maintain safe conditions as required in Section 2875, Subsection (d).

- c) The City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purpose of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the wastewater works lying within said easement. All entry and subsequent work, if any, on said easement shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.
- d) The City and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter a building on private property to prevent any illegal discharge to the sewers.

Section 2879.⁷⁵ Penalties.

- a) Any person found to be violating any provision of this Ordinance except Section 2877, shall be served by the City with written notice stating the nature of the violation and providing 90 days for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.
- b) Any person who shall continue any violations beyond the time limit provided for in Section 2879, Subsection (a), may be subject to a civil penalty of at least two hundred dollars (\$200.00) for each violation.
- c) Any person violating any of the provisions of this code shall become liable to the City by reason of such violation.

Section 2880.⁷⁶ Validity

- a) All Ordinances or parts of Ordinances in conflict herewith are hereby repealed.
- b) The invalidity of any section, clause, sentence or provision of this Ordinance shall not affect the validity of any other part of this Ordinance which can be given effect without such invalid or parts.
